

Paper Plate Angels

For this activity you will need

- Paper plates
- Plain paper or card
- felt pens/pencils/crayons
- Glue/Glue dots/double sided tape
- String or ribbon (if you want to hang instead of putting at top of tree)
- Scissors

Adult led activity

First decorate the plate using pens/pencils.

Draw around child's hand and cut out for the wings.

Cut a small circle for the head and draw on a face.

For assembly fold the plate to form a triangle shape (two edges overlapping at top but open at bottom) secure top pieces together using glue/tape , if using glue allow time to dry before moving on. Once ready stick the face at the top then flip over and glue/tape on the hands to create the wings. If hanging create a loop of ribbon or string and attach to back of plate then the decoration is complete.

Child led activity

Create a model or have a photo on table.

Gather all resources and let the child create, support if children wants to draw around hands and cut out but have alternatives if not e.g. shapes/fabric.

Remember this is the child's work so may look nothing like the model but the fun is in the making
